**Attachments:** SR-malerepro-phthalates\_06-22-18.docx

Here you go.

The methods here are brief because I did not want to repeat them across multiple papers in the same special issue, and I have stuck to that, but many of the reviewers across the three papers that have gone to peer review so far have wanted more methods in the paper.

Beth – can you send the latest version of your EI accepted paper on repro effects and phthalates?

We are toying with the idea of developing a journal paper on the Mn epi analysis done to date...
